Digital Estimator

Graphitech's new Digital Estimator is now complete and is available now at a reduced price. With the ability to estimate both Color and B&W while also estimating multi-signature and multi-quantity jobs, this program fits nicely with all Digital presses as well as providing a means for populating Web2Print Portals. And add to that our easy to use Matrix Calculator that allows you to generate Cost per Sheet data for each Digital Press, and you have a program that will be invaluable to your production and estimating departments. This new program also contains full bindery and stock selection. Now available for only...

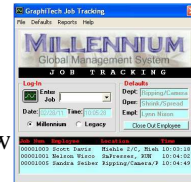

| Model | 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 | 10 |
|-------|-----|-----|-----|-----|-----|-----|-----|-----|-----|------|
| 1 | 100 | 200 | 300 | 400 | 500 | 600 | 700 | 800 | 900 | 1000 |
| 2 | 100 | 200 | 300 | 400 | 500 | 600 | 700 | 800 | 900 | 1000 |
| 3 | 100 | 200 | 300 | 400 | 500 | 600 | 700 | 800 | 900 | 1000 |
| 4 | 100 | 200 | 300 | 400 | 500 | 600 | 700 | 800 | 900 | 1000 |
| 5 | 100 | 200 | 300 | 400 | 500 | 600 | 700 | 800 | 900 | 1000 |
| 6 | 100 | 200 | 300 | 400 | 500 | 600 | 700 | 800 | 900 | 1000 |
| 7 | 100 | 200 | 300 | 400 | 500 | 600 | 700 | 800 | 900 | 1000 |
| 8 | 100 | 200 | 300 | 400 | 500 | 600 | 700 | 800 | 900 | 1000 |
| 9 | 100 | 200 | 300 | 400 | 500 | 600 | 700 | 800 | 900 | 1000 |

\$279!!

Bluetooth Enabled Job Tracking

Inexpensive and Powerful!
Now you can enhance your existing system with our new and remote Bluetooth enabled Barcode reader. This new program gives excellent awareness for Job Location while providing CSR's better tools for maintaining their job status reports. Imagine

having your customer call and ask if their job is ready. Simply click on the customer and instantly the status of the job appears along with a % completion progress bar at the bottom. No Guesswork! No searching for the job! No call backs! Pricing from **\$275 to \$950 w/Scanner.**

Professional Estimator Upgrade (Dos)

GraphiTech is pleased to announce that we have finished developing a means by which Saved Quotes no longer will stop at 32,768 quotes! The new procedure allows for saved quotes beyond 2,000,000! With this update, you will not notice any difference between how you used to save quotes other than it won't stop as it has done in the past and you won't need to establish any old RQ(n) values as was done previously. **Free if on Maintenance.** Otherwise \$425 Upgrade Price.

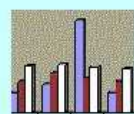

Windows 7 & Vista

Legacy: DOS programs will not run using 64 bit versions of Windows. 32 bit are OK. Use Windows7 Ultimate 32 bit Op. system.

Millennium: We have now tested both 32 & 64 bit versions and found that Millennium functions normally except for the display of reports. **But our PDF Exports** provide great reporting (built in) and by using the Price/Parts display will show cost for all 4 qtys. The PDF then attaches to your email. All other application reports function well.

Creating Reports w/ Access or Excel

For customers using the newer Millennium Series of software and who require additional reports beyond those that accompany the software, you have extraordinary capabilities when using either Microsoft Access (any version) or Microsoft Excel and our highly populated database called gtdata.mdb. Download "Report Creation" at <http://graphitech.com/downloads.htm>.

Millennium Price List Generator

Imagine... price books for the counter. For use with Millennium OE/Estimating only. Imagine. Every job priced in a handy price book on the counter for immediate lookup. From simple letterheads & business cards to envelopes & even 4 color brochures.

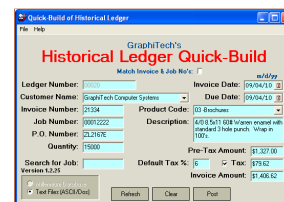

This incredible program provides short work in creating the ultimate price book... all with the same price as your estimator!

Order yours today and take control of your Front Counter pricing needs.

The Millennium Price List Generator utilizes the same estimates and Millennium Database that exist with your Millennium OE/Estimating program. The only difference is that the final price is refined by rounding up or down a given amount, as specified. And you set the exact quantities used when creating your price book. **Only \$99**

Historical Ledger QuickBuild*

Did you know that this program will allow you to build your Customer Historical Ledger without the need to actually create an invoice? And this option is available to all users who are currently on Maintenance. It is available for Legacy users currently and is available to Millennium users through the invoicing module.

If you would like to download this program, or any other update, go to <http://graphitech.com/downloads.htm> and enter your company name with the password user03. And while you're there, pick up the Ledger Convert utility that allows you to combine all the names of companies that exist in your Ledger to a single name.

*The Ledger Convert program works for both Millennium and Legacy (Dos) versions of the Historical Ledger.

Email your Legacy Quote

This new program allows you to print from any printer or attach your quote to an email with just a single click. Here's how it works: Every time you perform an estimate and ask for a quote, these new bid programs will create a text file with the name being your quote number. Then, by using our new QuoteMaster program shown here, you simply select the quote you want printed or emailed and then click "Print Quote". If you want to print to a Laser Printer, the Bid can easily be overprinted right on your existing form, letterhead or simply as it appears from the Estimator. When emailing your Bid, just select "PDFCreator*" and then select email.
