

Specification Sheet

Digital Estimating

Now you can easily estimate even the most complex digital job using a format that provides all specifications on one screen.

Digital Estimator

Powerful Estimating: GraphiTech's Digital Estimator is available for both Legacy and Windows applications.

The Worksheet shown to the right displays everything needed to perform an estimate. Enter all multi-sheet, multi-color signatures (entered by identifying the number of 1/0, 1/1, 4/0, 4/4, 4/1 and 0/0 sigs) along with the desired quantity, then select stock from an impressive database of inventory. For any in-line or off-line bindery operations, simply identify number of setups.

Reports: There are over 7 common reports and they are extremely functional! Delivery Ticket, Work Order, Job Jacket, Bid, Layout, Worksheet, Time/Cost summary and many more in the works!

On-Screen and Printed Layouts: Need to see or print a layout? It's built in. Click a button, select the layout and print it! If it's different than the existing page layout, the new design will load to the worksheet. And up to 4 different layouts are available for each of the three page sizes.

Order Yours Today!

Dual Digital Pricing Matrix: On the right is our unique Digital Matrix that permits smooth price transitions from every quantity and original available. You can enter pricing based on a per click cost or a total based on the quantity selected.

QuickBuild Matrix: And if you really want to start up quickly, the program will allow you to simply enter values in each of the four corners, click "Build Matrix" and the entire grid is completed for you!

All orders are shipped electronically and include documentation, digital installation instructions and software. Prices are per workstation. Contact GraphiTech for additional licenses to be used on multiple computers.
